EMPIRE TRACK SHOWS LIBERALITY IN NEW STAKE LIST.

Star Event is the \$15,000 Empire Handicap to Be Run on August 22—Daily Average in Added Money Will Reach \$7,000—Too Many Players With Bad Clubs.

The Empire City Racing Association has completed its list of stakes for the two meetings to be held at Yonkers this year and the total amount will reach an average of about \$7,000 a day in added money. Entries for these events will close on March 14 with Lyman H. Davis, racing secretary. The star event will be the Empire Handicap, for three-year-olds and upward, to be run on August 22. The race will have a guaranteed value of \$15,000 gross. The conditions as to payments by subscribers are modeled after those of the American Jockey Club, with a nomination fee of \$2.00 and a starting fee of \$2.00. On this basis the association will have to add more than \$10,000 in all probability to guarantee the amount stated above. A magnet of this importance is sure to attract many of the best handicap horses in training.

In addition to the Empire Handicap the older horses have been provided for with the Yonkers Handicap, \$5,000 added, one mile and a half, the Fleet Handicap, \$5,000 added, six furlongs; the Mount Vernon Handicap, \$2,000 added, one mile; the Arrow Handicap, \$2,000 added, six furlongs; the Midsummer Selling Stakes, \$2,000 added, one mile and a half; the Clark Handicap, \$2,000 added, six furlongs; the Whirl Stakes, \$2,000 added, one mile, and the Dunwoody Stakes, a selling event, \$1,000 added, one mile. The stakes for two-year-olds have been framed—the Clark Handicap, \$2,000 added, six furlongs; the Dunwoody Stakes, \$2,000 added, one mile and a half; the Frivillity Selling Stakes, \$1,500 added, five and a half furlongs; and the Demolish Stakes, for fillies, \$1,500 added, five and a half furlongs.

In point of liberality the Empire Racing Association compares favorably with the other metropolitan tracks, for in addition to these stakes the added money in nearly all of the events will be close to \$10,000. With the Yonkers track operating in perfect harmony with the other Jockey Club tracks it is reasonable to expect big entry lists in all of the events named above. Many Eastern turfmen, however, of certain conditions did not race at Yonkers last year have declared their eagerness to start their horses at the Empire track this year because they feel sure that they can win a fair proportion of the stakes and purses. This will mean that a majority of the best players and three class jockeys who were seen at Yonkers last summer will not be sent there again, but will be reserved for the tracks on the Northern circuit, which will provide almost continuous racing this season.

In recognition of the extremely fair treatment he has received from the Jockey Club, James Butler is evidently anxious to elevate his sport but not his race as much as possible. Between now and next year, Butler, who stands, entirely of steel, will be constructed, while there will be increased accommodations for the turf speculators, together with more comfortable rooms. Mr. Butler says that when he opens his track next summer the public will find it one of the best appointed racetracks in America. The trolley service will also be improved, as the additional track will be completed, so that there can be no delays because of blockades or lack of power. Altogether the Empire track, under the sanction of the Jockey Club, is about to begin a most successful career.

By winning the \$10,000 Burns Handicap at Oakland on Saturday Montgomery demonstrated the fact that he is far and away the best racehorse on the coast. Incidentally his race proved that confidence in public form is not always misplaced. The Pessara colt was picked to win the Burns weeks ago, and even when his crushing win of 123 pounds was announced the racing public did not lose faith in his prowess. What Montgomery began racing here last spring as a three-year-old he attracted the attention of some of the best judges of horseflesh at the metropolitan tracks. Martin J. Hertz, for instance, tried to buy him with an offer of \$20,000, declaring at the time that he believed the Pessara colt would develop into the best three-year-old in training. But the late F. A. Ford, who had offered Hertz for \$25,000 cash it was quickly realized that he would be raced solely for speculative reasons.

As a matter of fact Montgomery was sent to the coast on several occasions when he was not himself, and because of these races he soon became faded and stale. This was readily appreciated by the clever Hildreth who purchased the colt in the fall, for he sold his friendly but honest horse for a long time before being sent after the Burns Handicap. If Hildreth continues his present policy of not asking too much of the Pessara colt it will not be at all surprising if he wins some of the big races in the East this year. Having annexed the Burns, Hildreth will now get his \$30,000 Uncle ready for the winter Derbies that will be run on the Coast and at New Orleans. Uncle is far and away the best horse to race at these tracks, and Hildreth thinks he can win all of the Derbies if he starts.

The practice of nearly all the major league clubs in taking twenty or more players South in the spring is causing some opposition. The Boston Americans, for instance, will take nearly forty players South, while the New York Yankees will have about thirty men at Atlanta. Frank De Haas Robinson of the St. Louis Nationals, one of the most conservative of baseball magnates, has this to say on the subject: "Every club in the big leagues carries too many players. It is a matter of fact that the St. Louis Nationals have only twenty players South in the spring. In my opinion, sixteen players are enough for any club to carry throughout the year and, except in rare instances, that number should be enough for the club to carry in the summer camp. There is no sense in taking half a dozen or more unknown down South. The chances are that where three or four men are being tried for one position the worst one of the lot will get into the team and that he will show up a little better than the others in the spring, while the discards will prove his superior later on.

It would merely take enough men South to fill each position with two or three players. I would say to them: 'You are sure of your places if you deliver the goods. I know you can deliver if you keep in shape, but if you get out of condition and stay that way, I can get out and bustle' that's the way we did in the old days. We never loaded up in the spring with a dozen experiments. We knew on January 1 how our team would line up for the season. We also knew that we could depend on the men who were in the team at that time. The more players you have sitting on the bench the more injuries you are going to have among the regulars. If the latter know that there are men waiting for a chance to get into the game they will take a vacation whenever they can, providing they can offer some slight injury as an excuse to hookwork their manager." President Doney of the Boston Nationals has similar views and advocates that a club should carry no more than eighteen men. It is understood that the National Commission is also of this opinion and that before another year there will be some effective legislation in this direction.

Stanley Ketchell, the Grand Rapids pugilist, who will soon meet the winner of the Pacific-Kelly fight for the midweight championship of the world, is a fighter pure and simple who prefers action in the ring to theatrical tours. He says that five years from now he will be the heavyweight champion as he has the build for a whole lot more weight. In his when not in actual training Ketchell scales at 150 pounds now. He is only 21 years old and says that he will be in his prime as a heavyweight when Tommy Burns goes back. Ketchell says that he is a fighter, and he declares that the former is a better man than the Chicago Italian.

FAST STEPPERS ON THE SNOW.

A. H. Cooden's Trotter George M. Wins Many Speedway Brushes.

It was a gala day at Speedway Park yesterday, for New York horsemen were not slow to take advantage of the opportunity to see a good day's sport on the snow, and the alghella made merry music from early morning till long after sundown. The footing was a trifle heavy in the earlier part of the day and the brushing was confined to the upper stretch. Every one drove, and apparently every available conveyance had been pressed into service. The walk which skirts the drive on either side was crowded long before the real racing began.

Among those who drove were Alfred H. Cooden, his big trotter George M. Wins, Harry L. Topitz driving Judge Boardman, Elmer Stevens behind Norris, H. A. Pierce with Upton, Arthur L. Kerker with Rio de Princes, Bruckheimer behind Larabie Ross, Claus Bohling with black colts A. J. D. and Kingwood, Charles Lloyd holding the reins over a pair of jaunty looking high steppers and William H. Hildreth, who was driving the Shorty. Joseph Gibbons appeared on the drive with his recent purchase, Claret, who could find no owner willing to take the chestnut. Claret formerly belonged to the Butler stable and is one of the fastest pacers in training.

Work of Sutton and Morningstar in Contests Preliminary to Championship Match.

George Sutton, the champion, and Orlando Morningstar play their 18.2 balking championship match in the Lenox Yceum tonight, and both have had enough rough on the table lately to have whatever better comes from painstaking preparation. Sutton's series of games with George Slosson, in which he won six to Slosson's four, have been the most interesting of the season, even busier, playing afternoon and evening for the last two weeks in the academy. Sutton made a total of 3,965 points against Slosson, the grand average for which was 22.6. His best game was 18-12, which was a game of 500 points, which is the number to be played to win. His best run was 100, 151, 152, 129, 120 and 119. Morningstar has a good average against Sutton for the last two weeks, but he has played many more points. Several of his games were won by a margin of 100 points or more, but for six of his games he was not able to get over 100 points. His best game was 18-13, the grand average for which was 17.4. His best run was 100, 151, 152, 129, 120 and 119. Morningstar has a good average against Sutton for the last two weeks, but he has played many more points. Several of his games were won by a margin of 100 points or more, but for six of his games he was not able to get over 100 points. His best game was 18-13, the grand average for which was 17.4. His best run was 100, 151, 152, 129, 120 and 119.

ATLANTIC WHIST CONGRESS.

Mrs. Tyler and Mrs. Mable Win Faber Trophy—Officers Elected.

At the whist congress held at the Hotel Victoria on Saturday night the following were elected for the ensuing year as officers of the Atlantic Whist Association: A.
